

**SERVING THE FOOD INDUSTRY SINCE 1951** 

Now, the quickest way to order Omcan products is through our web site, at MyOMCAN. All you need is a browser and access to the Internet. Whether you consider yourself computer savvy or computer illiterate, we have constructed our site with you in mind. One of the key components to our site design is the ease of navigation; you are never more than three clicks from ordering a product. But, just because we built the site for simplicity, doesn't mean we left out all the features and benefits you expect from a robust business – to – business web site.

# $\mathcal O$ instant access TO YOUR ACCOUNT

### **Features**

This is a secure site which helps you to:

- Place an order
- Check order status
- Provide tracking information
- Check billing statement
- Create quotes
- Check balances
- Review transactions
- ✓ Inventory lookup

With our network of warehouses and service providers, throughout North America, we are able to exceed you and your customers' delivery and service expectations. Our friendly and knowledgeable sales and customer service teams are available, from 8:30 am - 8:00 pm EST, to quickly provide you with the information you need.

# OMCAN PROTECTION PLAN

# EXTENDED WARRANTY PROGRAM

Investing in our extended warranty program means you'll receive peace of mind knowing your product is covered after the standard manufacturer's warranty expires.

We'll make repairs on your covered product, including those made due to mechanical or electrical failure, at no cost to you. Your item will be serviced by an authorized Omcan technician.

# AVERAGE REPAIR PER LABOR COST STARTS FROM \$250-\$500

PLUS THE COST OF REPLACEMENT PARTS WHICH CAN START FROM \$500-\$2000

# PROVIDE YOURSELF WITH PEACE OF MIND. DON'T LEAVE YOUR MACHINE UNPROTECTED

Call us at 1-800-465-0234 for a FREE QUOTE or visit www.omcan.com/extendedwarranty.html

### **Fast Food Trays**

A staple in virtually every cafeteria, concession stand, or snack bar setting. These fast food trays feature an economical, lightweight polypropylene construction, great for everyday use. A traditional scratch-resistant basket weave design ensures a skid-resistant surface, reducing slipping and helping to prevent accidental spills.

# **CUTTING BOARD**

# Synthetic Rubber Cutting Boards

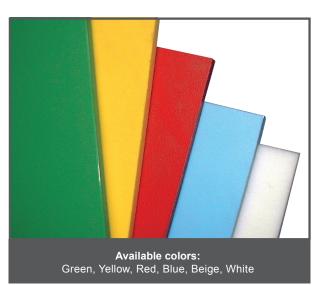

The Omcan synthetic rubber cutting boards offer the best solution for cutting meat, poultry, fresh fruits, and vegetables while offering minimal risk of contamination. The non-porous and non-absorbent rubber surface makes it easy on any knives. Unlike traditional wood cutting boards, these synthetic cutting boards will not crack, chip, splinter, swell, absorb liquids, retain orders, and offer a more sanitary alternative.

- Ideal for meat, poultry, seafood, dairy, fruits, and vegetables
- Non-porous and non-absorbent surface
- Resist cuts, scratches, and marring
- Crack and warp-resistant
- Will not dull knives
- Non-slip design
- FDA and NSF approved
- Easy to clean

# **MILLS**

### THE HISTORY OF TRE SPADE

Tre Spade, was founded in 1894, has always been a family business with a strong dedication to handcrafted production with its roots in the green hills of Canavese, a small region North of Turin, Italy. Tre Spade has a long tradition of quality.

While initially only producing hot-forged tools, the company began making coffee grinders soon afterwards, which quickly grew into their main business. It acquired market leadership and has maintained that position for over seventy years.

In the 1920's the company started producing pepper mills - both the inner mechanism (the heart of the object) and the wooden body.

TRE SPADE pepper and salt mills are made from traditional Italian products from PEFC-certified beech wood, guaranteeing correct and sustainable wood and forest management through rigorous environmental, social and economic standards.

The pepper mill mechanisms are made with:

- TRE SPADE conic mechanisms of special tempered steel with mechanically produced precision teeth, and come with a 20 year guarantee
- Steel shaft with anti-rust surface coating

The salt mill mechanisms are made with:

- TRE SPADE conic ceramic mills made in Italy
- Aluminium shaft

# COOK / BONING KNIVES

#### **Cook Knives**

Our knives are made of premium quality stainless steel. Each profile has been designed to exacting standards to ensure strength and durability. They are available in various handle types, colors, and blade configurations to suit your needs. The average cook knife is 8-10 inches, and if you examine the knife on its side, you'll note that the blade heel is the widest part of the knife. When you're slicing ingredients that are tough you'll get the most leverage over your ingredients when you cut from the knife heel.

## 12" Belt-Driven Automatic Slicer

This belt-driven gravity automatic slicer is equipped with two separated fan-cooled motors: one operating the blade, the other one operating the carriage. It's crafted with anodized aluminium alloy and a tempered chromium steel blade. Thanks to the slicer's adjustable carriage stroke and available options, this unit meets any requirement and allows professionals to slice more in less time.

This model features a removable aluminium blade cover, product holder, pusher, and stainless steel slice deflector. It is also equipped with a removable sharpener, fixed blade ring guard, and removable product holder.

## MEAT SLICERS continued

### 13" Blade Gear-Driven Automatic Slicer

This gravity feed slicer is equipped with automatic sliding carriage and two independent high performance fan cooled motors: one for the carriage and one for the blade. The gears are constantly bathed in oil. The polished anodized aluminium body along with its high carbon, hard chromed blade provides long life and durability. Easy to disassemble and clean.

- Adjustable carriage stroke and consequent no of cuts
- GEAR driven transmission
- Two separate motors one for the blade one for the carriage
- Removable parts for cleaning: blade cover, product-holder plate, aluminium meat grip, stainless steel slice deflector
- Fast no tools removable meat grip
- Blade with narrow band of chromium plated hardened steel
- 45° inclined blade
- Rotatable and removable sharpener
- Dual action sharpener
- Fixed ring guard
- Interlock on gauge plate on zero position
- Large product holder plate
- Readily removable transparent Plexiglas Protection on product
- holder plate
- New design with large spaces
- Fence included

## Horizontal Belt-Driven Slicers

These slicers are made of anodized aluminium alloy which makes it easy to clean and meet the most demanding sanitation requirements. The precise decimal thickness regulator ranges between 0 and 16mm. They are equipped with a built-in blade sharpener for effective cutting and the plate mounted on the ball bearings creates an exceptionally smooth operation. Ideal for thin prosciutto slicing.

## H Series Horizontal Gear-Driven Slicers

Omas "H" Series Slicers are specifically designed to cut fresh meat. The large horizontal carriage mounted on ball bearings rolls easily and has a double sliding table, designed to cut fresh meat by providing a long stroke depth without compressing the meat. The high performance gear driven motor offers constant blade speed throughout the cut for precision slicing.

The "H" Series slicers smooth finished anodized aluminium body is resistant to food acids and allows for easy cleaning as the carriage, end grip, and blade cover are easily removable without tools. The high carbon steel, hard chromed blade has a hollow ground taper that permits sharpening for full life of the blade and to facilitate the penetration and the slice detachment.

Precision embodied sharpener for perfect grinding and honing. Easy to use, providing an exceptionally sharp edge.

To de grease and dress the grinding stone simply pull it out.

## S Series Horizontal Gear-Driven Slicers

The "S" Series Slicers are especially designed to cut fresh meat. The large horizontal carriage has a double sliding table, specifically designed to cut fresh meat by providing a long stroke depth.

- Superglide: Specially treated gauge-plate and blade cover for a smoother performance that ensures precision cuts at all times
- Additional safety features: Fixed blade ring guard; aluminium thumb guard; interlock for carriage disassembly; NVR (No Voltage Release) switch and protections on the sharpener and blade
- In Compliance With Province Of Quebec Safety Standards (Item 39631 & 38915 Only)
- New Design: Enlarged receiving surface (Item 38915 only)

The specialized gauge plate and blade cover are treated with a unique process called SUPERGLIDE to reduce friction while slicing.

## **Manual Volano Slicers**

Designed in brilliant red with nostalgic appeal, our Manual Volano Slicers are an eyecatching addition to any restaurant. These units are fully hand operated, simple to maintain and operate, and built for durability and consistent slicing - making them ideal for prosciutto. The built-in blade sharpener keeps the blade sharp for efficient cutting. The slicers are equipped with a protection ring around the blade to meet CE standards. Other flywheel and trim colors are available as special order. Machines also available in different colors.

(Stand sold separately)

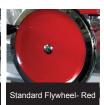

Different types of flywheels and colors are available upon request

## The Historic Volano

## VINTAGE LOOK

meets -

## **MODERN TECHNOLOGY**

Perfect balance between style, craftsmanship, passion, and cutting edge manufacturing techniques.

This classic style, circa 1919, volano slicer was designed by reaching a perfect balance between style, craftsmanship, passion, and cutting edge manufacturing techniques. The vintage look offers a sense of tradition with a touch of modern technology.

The classic volano slicer features a removable stainless steel cover tray, comb pusher and receiving tray which makes washing and sanitizing easy. The wide space between the blade and the slicer body provides easy access when cleaning.

The slicer comes with has a shiftable 360° blade guard, covering the entire blade, designed for safety while not compromising performance. The machine is equipped with a professional heavy duty sharpener, which ensures the blade stays sharp on every use.

S=Steel	Stainless Steel Lid and Piston (opt. On H26-PA/S)

## **CURING & AGING CABINET**

#### Age meat as little as 11 days!

Maturmeat® is the only maturation cabinet guaranteed, patented and manufactured 100% in Italy that reproduces a series of microclimates ideal for the traditional maturation of meat (dry aged). In as little as eleven days our system allows you to transform your meat into tender, juicy steaks, safely. Maturmeat™ is equipped with an industrial refrigeration system (not monoblock). Thanks to the patented Fumotic® system, it ensures the production and management of humidity used to reduce the weight loss of the meat. In addition, since the user can smoke/avor the product at low temperatures, without any combustion, it safely keeps the organoleptic properties of the meat unchanged. Maturmeat™, unlike wet aging, where the meat from its vacuum-sealed bag must be consumed immediate after opening, allows you to hang, store and consume meat in a longer period of time without similar risks. The unit is equipped with an advanced touch screen controller, that automatically manages the temperature, humidity, air speed, pH monitoring, smoke/avoring for the duration of the recipe. The Climatouch® controller, built into Maturmeat™, allows you to quickly start your next recipe, monitor recipe values, create and save new recipes, calibrate the optional pH probe (Item 41263) and review HACCP data. These features and more make Maturmeat™ one of a kind.

# Stagionello® Produce salami on an average of 20 days!

Stagionello®, is the only curing cabinet guaranteed 100% made in Italy, patented with a rated load capacity of up to 150 kg. Our technologically advanced system is equipped with yet another patent, Fumotic®, this allows our unit to not only manage cooling, heating, air velocity, but also to produce and maintain the desired amount of humidity in a short period of time. The new control system used by Stagionello® (Climatouch®) contains 30 classic Italian recipes preset into its memory, which can be modified by the user. To create your own product (eg salami milano) just scroll through the list and select the recipe name, Stagionello® Evo via the controller will automatically handle all production stages of that recipe. In the case of slow fermentation products (eg capicollo), even the delicate salting phase is automatically managed. Climatouch® allows you to create and save custom recipes, it could be an old family recipe, or create salami types from other countries as well. Optional pH probe (Item 41263)

LIST PRICE	\$12,063.50	

Omcan is the authorized distributor of BIRO® which produces quality meat processing equipment. We carry a full line of meat equipment which includes meat saws, meat tenderizers, mixer-grinders, tabletop grinders/mincers, floor model grinders/mincers, meat room/deli slicers, horizontal slicers, vacuum tumblers, poultry cutters, frozen block chippers, and patty/food formers. Service is available from locations worldwide. We can custom design and build any of our meat equipment to meet the demanding needs of today's Meat Processors.

Only available in Canada.

#### Saws

Our Biro meat saws provide reliability and durability to the food processing industry. True blade alignment allows for excellent blade tracking, giving dependable straight cutting year after year.

## BAND SAW BLADES

## Band Saw Blades outlasts competitive blades by 4 to 6 times

Premium quality, precision tooth-set blade is designed to minimize resistance and bone drag-cuts faster, cooler, and straighter. Closely held tooth tolerances, strong matched welds, and uniform heat-treating eliminate scoring, reduce vibration, and provide consistent blade performance, Thinner tooth-set reduces waste and bone dust by up to 30%. Heat treating process hardens each blade without discoloration. Sturdy blade maintains optimum cutting strength for dependable straight cutting. Cool and clean-cutting teeth provide extended blade life. Fewer blade changes, faster cutting, and better labor cost. Width of blade: 5/8"

## **Medium-Duty Meat Mixer**

This meat mixer allows consistent mixing of meats and additives.

The MM-BR-0050 has a stainless steel tank, mixing blades and cover, a cast iron structure, and steel body which is specially painted. The transmission consists of a chain and a belt. The tilting tank is mounted on self-adjustable ball bearings and is equipped with a tank lock. A safety device does not permit the machine to operate when the cover is open. It makes day-to-day production easier and cost effective. Ideal for small to medium applications.

## FISH SCALERS

## **Electric Fish Scaler**

With this electric fish scaler, supermarkets to seafood processors can scale fish quickly and efficiently. This scaler features a heavy-duty sealed motor, 5' flexible steel, reinforced drive shaft with anti-slip finish, and corrosion resistant, well guarded scaling head. The equipped Diamond Tooth Head is used for the majority of fish (snapper, sea bass, whitefish).

#### Six Flute Tool (Optional)

Can be supplied in place of the diamond tooth on a new machine for an additional charge or as an accessory. Used mainly on large scale fish with thick skin. Some examples include Carp, Buffalo, and Grouper.

#### **Eight Flute Tool (Optional)**

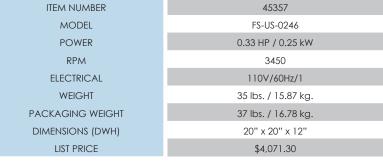

Can be supplied in place of the diamond tooth on a new machine for an additional charge or as an accessory. Used on small to medium scale fish that can be prone to damage when scaled by coarser tools.

Diamond Tooth Head

QPS Approved

## Carving / Portable Fish Scaler

- Efficient, clean and reliable
  - It scales fish in a clean and easy way
  - Rechargeable lithium battery
  - Fast and easy cleaning with water
  - Waterproof

#### Rechargeable Portable Fish Scaler

#### **Manual Fish Scalers**

Please refer to page 45 to view our Manual Fish Scalers

## BI FNDFRS AND MIXERS

#### **Brushless Blender**

Create various healthy meals, drinks, and deserts with Omcan's powerful brushless blender. This touchpad controlled blender is one the quietest blender in the market. ## SLUSH MACHINES

## ELITE SERIES Slush Machines- Single/Dual/Triple NEW

What is better than serving icy slushie on a hot summer day? With Omcan's efficient and reliable European Slush Machines, you receive quality and perfectly chilled slushies every time. These machines are part of our Elite Series, and are designed and made in Italy, and are perfect for any size of location.

The elegant and compact design is suitable for operations with limited kitchen space.

Each bowl is capable of holding 10 Liters of slushies producing higher number of servings. These models boast a powerful motor capable of handling everyday operations.

The lids come with lights to provide an appealing visual for the merchandise and each unit comes standard with drip trays to prevent spillage.

The auger continuously mixes contents to maintain your beverage's texture, temperature and consistency. It also comes with adjustable controls to increase or decrease the drink's consistency or temperature. All three sizes comes with ETL and CE certifications and backed by a one year warranty.

Proven in the market for over 20 years, Zumoval juicers are the strongest on the market with heavy-duty motors and gears manufactured from stainless steel. It is also the fastest juicer on the market producing up to 200 liters per hour of juice.

#### Great quality juice

The exclusive design of Zumoval citrus fruit squeezers means that the peel is not pressed during the squeezing process, but separated from the flesh. The result of this process is a high quality, tasteful and vitamin-rich juice.

## Maximum performance at peak hours

Zumoval has also considered the various needs of different establishments, offering easy solutions to specific problems. Therefore, several different models have been designed, ranging from the Minimax, which squeezes 15 oranges per minute, to the FASTTOP which squeezes 45 oranges per minute, guaranteeing maximum efficiency at times of greater demand

## Strong and reliable

All our range includes high quality, durable materials, assembled under a strict manufacturing control. That is why we can state that our machines are able to run during long periods of time, without suffering any kind of mechanical damage. Due to their component design and their easy to dismantle squeezing system, they allow running express cleaning tasks.

## **ICE SHAVERS**

A brand new ice-shaver with an innovative attractive design. IC-IT-0002 answers modern market demands by producing ice pieces in various sizes. As well as the finely crushed ice for traditional Italian "granita", IC-IT-0002 can also produce cubes in larger sizes for cocktails or to decorate cold served dishes or for display.

The IC-IT-0002 pays very close attention to operator safety with the addition of a safety microswitch on the feed throat and on the streamlined ice container. Quality is guaranteed by the large sized throat in anodized aluminium, stainless steel small parts and components, the structure in aluminium and steel, the streamlined cover design and thermoformed plastic ice tray suitable for food use.

High production standards are guaranteed by the 350 W motor, protected from stress provoked by the processor by a ribbed belt for low power absorption.

## PACOJET SYSTEM

100% natural sorbets, ice creams and more with Pacojet in your kitchen!

Pacojet is a unique food processor widely used by many famous chefs worldwide to produce a large variety of both sweet and savory recipes.

Pacojet takes the work out of making quality superior frozen desserts. From 100% natural sorbets, made only from fresh fruit, to smooth ice creams which can be either full fat, yogurt-based or even dairy-free. But that's not all! Pacojet can also be used to process savory recipes ranging from light, airy, mousse and fine pâtés or farces to vegetable and herb concentrates with which an infinite of variety of soups and sauces can be created. Whatever ingredients a chef's imagination conjures up, Pacojet can micro-purée it to perfection. We guarantee it!

#### **PACOJET 1 SYSTEM**

#### **FEATURES**

- Pacotizing enhances natural flavor and produces a superior end product of exceptional consistency and taste.
- Freezing locks in freshness and aroma. No preservatives, no additives needed.
- Enables reduction in sugar and fat without sacrificing quality or taste.
- Saves time, labor, raw material. Eliminates straining through a sieve. Fast! Makes 1 liter in under 4 minutes.
- Very versatile. Many applications.
- Convenient: prepare recipes anytime, then freeze and store until needed
- Processes without breaking freezing chain. Partly used beaker can be safely put back in freezer. NO WASTAGE!
- Crystallization is no longer an issue because beakers can be "repacotized" several times without loss in quality
- Cleaning cycle takes only 1 minute.

- intuitive icons
- New, revolutionary pacotizing features for fresh, frozen foods:
  - Whole and decimal portions perfect for precise quantities
  - Optional air pressure mode with automatic depressurization –pressure release during a processing cycle possible
  - Overfill rescue function senses and recovers overfilled beaker contents automatically without need to thaw
- New, special programs for processing fresh, non-frozen foods with the Pacojet Coupe Set\*:
- 'Cutting/Chopping' for tartar, farces, herbs, etc.
- 'Mixing/Whipping' for liquid foods. All without generating heat a processing cycle takes just 1 minute!
- Easier to operate and now customizable:
  - Comprehensive, illustrated instruction manual
  - Complete cleaning cycle shown on the display visual guidance for simple and hygienic cleaning of the machine
  - Customization of user settings customize your Pacojet 2 to fit your preferences and needs
- High-quality accessories with sustainable value all Pacojet 1 accessories are compatible with Pacojet 2.

Intertek

## PACOJET SYSTEM continued

## Here's how it works:

Take the frozen beaker (your recipe frozen to -22°C / -8°F) out of freezer and attach directly to the machine

A hi-speed blade (2000 rpm) "shaves" an extremely fine layer with each revolution and processes a portion in just 20 seconds

..producing a creamy, very finely -textured end product to +10°F(-12°C), the ideal serving temperature for frozen deserts. Serve or hold in ice cream cabinet or service freezer at 10° to 5°F (-12° to -15°C)

# PASTA COOKER

# Stainless Steel Electric Pasta Cooker

The CE-CN-0004-P and CE-CN-0008-P electric pasta cookers will give you the reliability you're looking for during prep in your restaurant. These durable stainless steel units will keep stationary while you work on your signature pasta dishes with their non-slip feet. The CE-CN-0004-P includes a 9L water tank and 4 baskets while the CE-CN-0008-P has two tanks and 8 baskets. These models include a front sliding door for easily accessible and convenient water refill and waste outlet.

#### **Features**

- Durable stainless steel construction
- Front sliding door for water refill and waste outlet
- Two 9L water tanks
- 8 baskets included
- Non-slip feet

## **Heavy-duty Vacuum Packaging Machines**

These vacuum packaging machines are ideal for a variety of applications. The machines are equipped with a digital control panel that controls the sealing temperature, sealing time, drawing air time, and cooling time. Once the lid is closed, the machine automatically starts the sealing process.

#### **FEATURES**

- Comes with digital control system controlled by a microcomputer that allows for accurate adjustment of the desired vacuum level within the chamber
- The high-quality acrylic lid provides visible access to the chamber
- These units are equipped with a high-efficiency vacuum pump which produces lower noise and provides more working stability due to its unique suspension system
- Constructed of high quality 304 stainless steel to provide elegancy and durability
- The V-shaped chamber lid gasket is made of high density material and guarantees optimum sealing performance
- Designed to be comfortable ergonomics and user-friendly

# Mixers with 22-132 lb. Capacity

These models are spiral mixers with bowls made of stainless steel. They feature fixed stainless steel high strength spirals as well as a safety device which stops the machine when the bowl cover is lifted. These machines will greatly reduce the usual mixing time of traditional machines. Ideal for bakeries and pizza shops, these mixers performs well with both hard and soft dough.

# SANDWICH GRILLS

Grill your signature sandwiches to perfection with our great selection of panini grills. These grills are ideal for quesadillas, paninis, hamburgers, focaccia, and pita sandwiches. These units have a stainless steel body with cast iron grilling surfaces for easy cleaning. The double grills feature independent controls for each grilling side.

## **GROOVED SURFACE**

The grooved surface on the grills provides grill marks to the meat or sandwich making it more visually appealing for your customers.

#### **SMOOTH SURFACE**

This configuration is ideals for even and complete contact for your food such as grilled cheese sandwiches, quesadillas, and hamburgers.

#### **GROOVED TOP AND SMOOTH BOTTOM**

If versatility is what you are looking for, look no further as this panini grill offers the best of both worlds. The smooth surface can be used as a griddle/warmer while the grooved surface creates appealing grill marks.

#### **DUAL GROOVED AND SMOOTH SURFACE**

We also offer units with a split cast iron surface with grooved on one side and smooth on the other making it perfect for high volume operations.

## Bread Slicers with 1/2 HP Motor

The slicer is designed for shop counters. A safety guard device is designed especially for protecting the operator. The machine is safety-protected by an interlocked safety loaf pusher system and is powered by a 1/2 HP motor. A bread bagging shelf is provided for the operator to pack bread easily. Crumb drawer is fitted for collecting excess crumbs. Heavy duty construction blade frame makes evenly sliced bread.

In compliance with Province of Quebec safety standards.

\*Omcan Inc warrants the gas fryers to be free of defects in materials and workmanship for a period of 1 year from the date of original installation. The Stainless steel fry tank has a five (5) year limited tank warranty. If during the first year only, the tank is found to have a leak and is verified by an authorized service company, the entire fryer will be replaced. After the first year a replacement tank will be sent free of charge excluding freight and labor charges.

# **Gas Floor Fryers**

Omcan's Gas Floor Fryers are constructed with a welded stainless steel tank. Thermostatically controlled baffles maintains temperatures between 200°F/90°C and 400°F/204°C, with an automatic safety shut off at 450°F/232°C. Fry tank is a pressure blasted all stainless steel tank with a high heat baffle system, cool zone, and 1 1/4" drain valve.

### **INCLUDED ACCESSORIES:**

- 2 wire mesh baskets, with plastic coated handles
- 1 nickle plated tube rack
- 1 drain extension
- Built in heat deflector
- 4" 6" adjustable legs

# **BLAST CHILLERS**

Blast Chillers cool food rapidly by circulating cold air through the unit until temperature falls down to safe levels. These units are designed to quickly lower the temperature of foods to minimize bacterial growth ensuring food down through the danger zone within minutes compared to the hours it takes when stored in a refrigerator. Blast chillers also offer an advantage over traditional freezer by rapid freezing the food which produces fewer and smaller ice crystal resulting with minimal damage to the food. This improves the frozen food's texture once it is reheated. Although they are typically more expensive than traditional refrigerators, they are mostly used in hotels, restaurants, and food operation business.

### Features:

- Made of stainless steel with internal glossy finish
- 60-mm high density polyurethane foam insulation
- CFC and HCFC free
- Designed with a digital control panel and core probe
- Door switch for stopping the fan
- Removable grids-racks for easy cleaning
- Electric defrosting system
- Automatic cold storage at the end of the cycle
- Optional germicide lamp or reverse door (except for 41899) on order only

### **INDUSTRY LEADING LOWEST LIFE COST**

A 76% reduction in the Total Cost of Ownership (TCO) over the past years has been possible by introducing innovations such as:

- Standard high efficiency LED lighting
- Proprietary Energy Management & Maintenance Device (EMMD)
- Electronic fan motors and low maintenance condensers
- Increased component life

### SUSTAINABILITY AND SOCIAL RESPONSIBILITY

Imbera strives to offer coolers & freezers with the lowest Life Cycle Climate Performance (LCCP) ensuring minimal environment impact at all stages of the products life cycle.

### **KEY FEATURES OF IMBERA REFRIGERATORS & FREEZER**

### **ELECTRICAL TEMPERATURE CONTROLLER**

- Reduces energy consumption up to an Additional 50%
- Reduces the product repair index up to 75%\*, lowering maintenance costs
- Contributes to environmental sustainability by reducing energy consumption

### LOW MAINTENANCE CONDENSER

Imbera's condensers are designed especially for easy maintenance and long, trouble-free operation. Our units use technology developed by Imbera that drastically reduces your total cost of ownership by minimizing the maintenance required for your condenser.

- Prevents dust that blocks air flow
- Saves energy by not forcing the compressor to overwork
- Extends the life of the compressor

### HIGH EFFICIENCY GLASS DOORS

"Low-e" double panel argon gas filled glass, packed with an extruded insulated plastic frame, making this door the most energy efficient in its category.

### LED PERIMETER LIGHTING

The attractive LED lighting system, uses a portion of the energy of regular fluorescent lights. Their useful lifespan is 10 times that of a fluorescent light bulb.

### ADVANCED ELECTRICAL FAN MOTORS

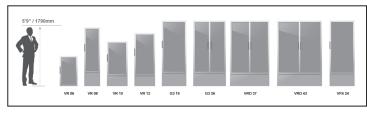

Advanced electronic fan motors allow better performance, using only a fraction of the energy required by a shaded pole motor.

### CYCLOPENTANE INSULATION

CFC and HFC free Cyclopentane foam is eco-friendly and a high efficiency insulator.

# ICE CREAM FREEZERS

### Ice Cream Display Freezer / Novelty Case with Curved Top

- Omcan Ice Cream Freezers are designed to merchandise and provide increased sales of frozen novelties and seasonal specialties
- Manufactured with up to 18 cubic feet capacity for maximizing storage
- Comes with four two-inch casters for mobility (2 locking)
- Designed with sliding doors with curved top glass and locks
- Exterior is made of white painted steel with gray plastic trim
- Built-in lock for security
- Plastics trim and door frames
- Steel interior walls
- Conveniently located rear defrost drain
- Wire baskets included 9.5" x 7" x 20" / 1330 cu. in.

### TERMS, CONDITIONS AND WARRANTY

### **Disclaimer**

Although the information in this catalogue is presented in good faith and believed to be correct at the time of printing, Omcan makes no representations or warranties as to the completeness or accuracy of the information. Omcan has no liability for any errors or omissions in the information contained in this catalogue. Some variations between pictures in this catalogue and product may occur.

Omcan and the manufacturers represented herein, reserve the right to change, delete, or otherwise modify the information which is represented without any prior notice. Persons receiving this information will make their own determination as to its suitability for their own purposes prior to use. In no event will Omcan be responsible for damages of any nature whatsoever resulting from the use of or reliance upon information from this catalog or the products to which the information refers.

All weights and measures shown are best approximations.

Possession of our price list or literatures does not constitute an offer to sell.

### **Product Liability**

Omcan Manufacturing and Distributing Company Inc. and Omcan Inc. dba Omcan are not responsible for any harm or injury caused due to any person's improper or negligent use of this equipment. The product shall only be operated by someone over the age of 18, of sound mind, and not under the influence of any drugs or alcohol, who has been trained in the correct operation of this machine, and is wearing authorized, proper safety clothing. Any modification to the machine voids any warranty, and may cause harm to individuals using the machine or in the vicinity of the machine while in operation.

### **Prices and Product Specifications**

Prices shown are list prices and are subject to trade discount and to change without notice. Prices may also be changed without notice due to unforeseen cost increases of imported products, raw materials, or currency fluctuations. We carefully check pricing and product specifications, but occasionally errors can occur, therefore we reserve the right to change both without notice. We are not responsible for customer pricing errors to their end user. Some products listed may be non-stock items.

### **Order Placement**

All orders must meet or exceed a \$100.00 net minimum. A \$25.00 handling charge will automatically be added to any order if it does not meet the requirements set out above.

When placing verbal orders over the telephone, Omcan is not responsible for verbal misunderstandings or mistakes

Please contact us immediately if you would like to cancel or modify an order. If an order is already processing in our warehouse and being packed to ship, we cannot guarantee that the order can be canceled or modified. In order to maintain accuracy and efficiency in our order process, we are unable to alter any orders after they have been placed. If you would like to add to or modify your order in any way, please contact Customer Service to cancel the order so you can reorder exactly what you need.

Our warehouse works in the evening to package orders, ensuring shipments early the next day. If an order is packaged to ship in the evening the order is not able to be canceled. If we cannot cancel an order because it has already shipped from our warehouse, please see our returns procedures.

### **Freiaht**

All items shipped are subject to Declared Value. To decline the Declared Value on your shipment, it must clearly be indicated on your purchase order. By declining the Declared Value, the buyer must supply their carrier's account number as the order will be shipped 3rd party. The buyer assumes all responsibility for the shipment once it has left our warehouse. Shortage or damage in shipment does not excuse the buyer from timely and full payment of the invoice.

Unless we are advised otherwise, back orders will be shipped when the product arrives. If early shipment is requested, then freight charges become the customer's responsibility. On prepaid shipments, Omcan retains the right to choose the carrier. Split shipments or back orders are not allowed on prepaid orders. Should the customer request a split or partial shipment, freight charges then become the customer's responsibility. Any accessorial freight charges are not included in prepaid shipping.

Certain Items are required to be shipped on a pallet due to weight, size, product type, and packaging constraints. Items of this nature are indicated in the Price List with a Delivery Truck Icon.

### **Freight Claims**

Upon receipt of an Omcan shipment, please inspect for external damage. If no damage is evident on the external packaging, open carton to ensure all ordered items are within the box, and that there is no concealed damage to the

item(s). If the package has suffered rough handling, bumps or damage (visible or concealed), please note it on the bill of lading before accepting the delivery and contact Omcan within 24 hours, so we may initiate a claim with the carrier. A detailed report on the extent of the damage caused to the item(s) must be filled out within three days from the delivery date shown in the shipping documents.

Omcan has no recourse for damaged products that were shipped collect or third party. In the event of a shortage, or if damage is detected on a collect or third party shipment, notify the delivering carrier at once to request an inspection and file a claim promptly. Any delay may cause you a loss. Shortage or damage in shipment does not excuse the buyer from a timely full payment of the invoice. We cannot reimburse claims for shortages or delays caused by the carrier responsible. By signing your name on the delivery receipt without noting any damages, you are stating that you have received your shipment in acceptable condition.

### **Packaging**

Omcan reserves the right to package items in what it deems to be the most suitable, safe and economic manner. Packaging dimensions may not accurately represent final shipping dimensions.

### **Taxes**

Taxes are charged as required by local or federal law.

### **Payment Terms**

Full payment is due net 30-days for credit approved accounts. Accepted payment methods include cash, check, and wire transfer. Payment by Visa, MasterCard and American Express are accepted for prepayments or for net 10-day terms. Credit card payments will not be accepted for amounts over \$3000.00. Accounts without terms are subject to payment in advance, until credit approval has been granted and accepted. All products, are F.O.B. one of Omcan's North American regional distribution centers. International orders are accepted against checks in advance and wire transfers only.

### Returns

Returns will not be accepted unless approved in writing. Minimum return amount of \$100.00 list. Returned goods must be received back to Omcan within 30 days of purchase. To obtain a return authorization, please call 1-800-465-0234. All authorized returns must be shipped freight prepaid. A restocking charge of 35% will apply to unused products in their original packaging. Return of used products is subject to inspection and a restocking charge of 50% or more may apply. Special order, clearance, parts, demo items, vacuum pack bags, or non-standard items are not returnable.

In order to improve our efficiency, Omcan will call or email our customer advising the cost of the repair or requesting instructions on how to return the machine. After three attempts to contact our customer, the following terms will apply:

### **Timeframe**

Days after contacting customer with quote for repair	Storage Fee
0-7 days	No charge
7-60 days	\$25
60 days	Dispose of machine / Omcan property

Omcan contacts customer with phone call and follow up with email, after repair or with quote.

### Warranty

Omcan provides warranty against all defects of material and manufacturing, as well as for defective assembling, for all the products that we sell.

The warranty periods vary based on our product categories.

Product Category	Warranty Period
Electrical and Gas equipment	1 year parts and labor
Refrigeration (Items will be identified in the catalogue their warranty period)	- 1 year parts and labor and 5 years parts only on the compressor - 3 years parts and labor and 5 years parts only on the compressor
All Demo or Used Electrical Equipment	30 days
Non Electrical Equipment	6 months
Utensils, Supplies and Smallwares	30 days
Knives	Limited Lifetime Warranty

For more information, visit www.omcan.com.

Omcan offers an extended warranty on all our machines; please contact your local sales rep or customer service for more information.

Omcan will provide our customers or end users with onsite warranty coverage on all equipment in excess of 115 pounds / 52 kilograms. For lighter products, Omcan will provide carry in bench warranty. Bench warranty means that the product must be dropped off or delivered to us, or to one of our authorized service centers (at Omcan's discretion), freight prepaid, for warranty evaluation. We will not accept COD or collect shipments.

### **Conditions of Omcan Warranty:**

- 1. A copy of the Bill of Sale and/or serial number is required for all warranty claims.
- 2. The on-site warranty applies to regular week day hours. Costs associated with holidays, weekends, evening or rush service calls will be the responsibility of either the end user or Omcan dealer.
- 3. Remote geographic locations may limit guarantee to a parts only warranty. Labor, travel and mileage covered under warranty include straight time labor charges and travel charges within 100 miles / 160 km, roundtrip. Overtime, premium labor charges and travel charges in excess of this round trip distance will not be covered by OMCAN and will be the responsibility of the person or firm requesting the service.
- 4. There is no on-site warranty for residential addresses (unless specified differently).
- 5. Warranty is void for all items sold outside of the USA or Canada.
- 6. Omcan reserves the right to either repair or replace a product at our discretion.
- 7. This warranty does not apply to abuse, willful or accidental damage, or to products used for other than their intended purpose.
- 8. Any tampering or modifications to any products automatically cancels the warranty guarantee. Items not covered by our guarantee include components which are subject to natural wear and tear. Products subject to abuse, misapplied, misused, subjected to harsh chemical action, or external causes such as electric power fluctuations or poor water quality, field modified (without the approval of Omcan), improperly installed or maintained, damaged by flood, fire or other acts of God, or which have altered or missing serial numbers automatically void warranty.
- 9. This warranty is not transferable and is limited to original installation of equipment sold by Omcan for the original user.
- 10. This warranty does not apply to any equipment that has not been installed in accordance with the directions published in the appropriate installation and operation manuals.
- 11. If the equipment have been changed, altered, modified or repaired with parts not authorized by Omcan or by a non-qualified Service Technician, then Omcan shall not be responsible for warranty claim.
- 12. Adjustments such as calibrations, leveling, tightening of fasteners or utility connections normally associated with original installation are the responsibility of installer and not that of Omcan. Regular maintenance, such as cleaning, greasing, descaling, tightening, sharpening, or anode parts shall be the responsibility of the customer.
- 13. If required by Omcan, customer shall return to Omcan for examination of any failed product or part to confirm that the part has failed as a result of material or workmanship.
- 14. All parts orders are shipped via ground courier only. Extra rush shipment charges will be the responsibility of the end user or dealer
- 15. Dealers and end users should not replace or authorize repair of Omcan equipment without an approved return authorization number. Cost incurred in such repairs will be at the dealers or end user's expense.
- 16. For an end user onsite service call, Omcan will require a credit card pre authorization, until the technician determines it is a warranty repair.

This warranty and the liabilities set forth herein are exclusive and in lieu of all of their liabilities and warranties, express or implied, including but not limited to, implied warranties of merchantability and fitness for particular warrantee purpose and constitutes the only warranty of Omcan. Omcan's liability on any claim, including but not limited to negligence, shall not exceed the price of the equipment that gives rise to the claim.

The foregoing warranty is the entire warranty of Omcan. Omcan neither assumes nor authorizes any other person, purporting to act on its behalf, to modify or to change this warranty, or any other warranty or liability concerning Omcan equipment. This warranty provides the exclusive remedy against Omcan relating to all Omcan products, whether in contract or in tort or under any other legal theory, and whether arising out of warranties, representations, instructions, installations or defects from any cause. OMCAN shall not be liable, under any legal theory, for loss of use, revenue or profit, or for substitute use or performance, or for incidental, indirect, or special or consequential damages or for any other loss of cost of similar type. The liability of Omcan is limited to the repair or replacement of any part found to be defective.

For over 65 years, Omcan has delivered quality products and services to the food service industry. Today we continue to expand our portfolio and footprint to offer new products, to help every kitchen store, prepare, cook and serve.

We are very excited to present you with our largest catalog yet. In it you will find over 1000 more industry leading products, larger and more detailed photos, expanded product descriptions and more detailed product specifications.
