External	600 x 600 x 1980mm 24" x 24" x 78"
Packaging Dimensions	650 x 650 x 2200mm 25.5" x 25.5" x 86.6"
Gross Weight	86 kg

TECHNICAL DRAWINGS & DIMENSIONS

*measurements in diagrams are in mm

DynaFlow®: indirect and adjustable ventilation system, designed to ensure even and consistent air distribution. Create a more stable environment for a higher degree of food safety.

Humidifier: allows the active management of the humidity level inside the cellar thanks to vaporized water supply. H₂O is taken from a dedicate tank (included) or thanks to connection to the water network.

HumiRight®: no need for additives or preservatives such as salt blocks, avoiding the potential growth/proliferation of harmful bacteria and/or molds on your valuable product.

AISI 304 Stainless Steel: suitable for contact with foodstuffs, safe, compliant, durable, and resistant against external agents (chemical and environmental).

ClimaCure®: minimizes the possibility of negative microbiological effects, and helps to promote food safety.
